The Inspired Life Series consists of two sessions...

Inspired Life Weekend:

“THE FOUNDATION” & “THE FRAMEWORK”: A 3-day workshop that guides the participant as they identify limiting perceptions and past experiences that may influence or even inhibit effectiveness.

Inspired Life Weekend is oriented to what it takes for you to build a successful future offering learning experiences that allow each participant to discover more tools to increase effectiveness and productivity.

Inspired Life Weekend provides a solid opportunity for the individuals to examine their past, the basis of their relationships, and set in action purposeful behavior. Insight gained is useful in making paradigm shifts, which empowers the participant in their professional and personal environment; individuals reach a better understanding of themselves and others. Participants discover new ways to face life’s challenges with ease and excitement.

Momentum:

“THE FOLLOW-UP” is a 2-day workshop designed to assist the Inspired Life Weekend graduate in setting goals and integrating new skills in their work and home environment so as to create an intentional life directed toward a personal mission. New insights, challenges, support and fun are experienced with a familiar group of excellent individuals who aim high in their personal and professional growth.
